

WORKS OF CHARITY

EDUCATION

In various parts of the world there are Canossian schools for the education and care of children and young people. Once instructed, formed and equipped with a free and critical conscience, they can assert their talents, overcome situations of poverty and offer their contribution to the civil and ecclesial community for the transformation of the world into a civilization of love where Jesus is known and loved. Special attention is given to the promotion of women that they may become more aware of their human and Christian dignity and face the commitments of family and social life with responsibility. For those who cannot enter regular school structures, the sisters organize non-formal educational activities so as to facilitate their full insertion into the world of education.
