

# WORKS OF CHARITY

## EVANGELIZATION

It is a privilege for the Canossian Sisters to participate in the work of evangelization that aims at promoting the Christian life, lived in the fullness of charity through a free and motivated response to God. This is attained by “breaking the bread of the Word” and by imparting the faith in a humble, simple and devout way, trying to integrate into daily life the contents of evangelization. Evangelization seeks to integrate the human story of each person with the divine plan already within them. Aware that in the field of catechesis and evangelization, shared knowledge is not a human science but the gift of God’s revelation, every Canossian is called to respect the freedom of a gradual growth in each person.
